PROFESSIONAL SUMMARY

Undergraduate engineering student with hands-on experience in backend and full-stack development through internships and personal projects. Working with Python, TypeScript, Express.js, Redis, and scalable backend systems. Experience in building REST APIs, database-driven applications and integrating real-time features.

TECHNICAL SKILLS

Languages: Python, C++, JavaScript, Object-Oriented Programming (OOP), Data Structures, Algorithms
Tools & Technologies: HTML, CSS, JavaScript, React.js, Node.js, Express.js, Django, MongoDB, PostgreSQL, Git, GitHub, Postman, Redis, GCP, Docker, Linux
Soft Skills: Strategic Planning, Conflict Resolution, Effective Communication, Team Coordination

EXPERIENCE

Software Developer Intern **Dec 2025 – Feb 2026**
Saiket System Pvt. Ltd. *Pune, India*

- Implemented robust **CRUD** operations and data management modules using **Node.js** and **MongoDB**, streamlining application functionality and improving data integrity by 25%.
- Collaborated with the frontend team to integrate backend services, tested API endpoints using **Postman**, and resolved integration issues to ensure seamless application functionality and reliable performance.

Python Developer Intern **Jun 2023 – Aug 2023**
AIS Solutions Pvt. Ltd. *Pune, India*

- Built a job recommendation system using **supervised machine learning**, performing data preprocessing, feature engineering, and candidate profiling to improve job-role matching.
- Applied **Label Encoding** and feature vectorization on 50+ skill features, and evaluated models using **Precision, Recall, and F1-score** to optimize recommendation accuracy.

PROJECTS

Finally Placed Placement Assistant GitHub Demo

- Developed a full-stack placement assistant with a team of three, implementing **resume parsing**, **AI-powered job matching**, and mock interview modules.
- Integrated multiple third-party **APIs** to analyze resumes, extract candidate information, and generate personalized job recommendations using **100+ structured data points**.

EcoSimple – Smart Environmental Monitoring Rover Vercel Demo

- Integrated GPS and environmental sensors into an **ESP32**-based smart environmental monitoring rover to collect and transmit **real-time** location and sensor data.
- Built a **Flask** backend with **REST APIs** and an interactive dashboard for real-time monitoring, sensor visualization, and alert generation.

EDUCATION

Sinhgad Institute of Technology and Science **2024 – Present (Expected 2027)**
Bachelor of Technology (B.Tech) in Electronics and Telecommunication – CGPA: 7.85 *Pune, Maharashtra*

Government Polytechnic **2021 – 2024**
Diploma in Computer Science – Percentage: 80.13 *Pune, Maharashtra*

ACHIEVEMENTS & CERTIFICATIONS

- Winner of Avishkar Internal Ideathon among 50+ teams, and Top Rank among 800+ teams in a national hackathon.
- Actively solving problems on LeetCode, with a total of 300+ problems solved.
